

# X Japan, Unfinished (Old version)

Wipe your tears falling down...  
from your eyes, and forget me.  
No need to be hurt anymore.  
Go away from me now ...  
I don't know, what is love?  
No need to be hurt anymore.  
Oh, I'm looking at you.  
I'll lose control of my self.  
Wipe your tears falling down ...  
from your eyes, and forget me.  
No need to be hurt, anymore.  
All visions, going to vanish...
