

X Japan, White Poem I (original m.t.a. mix)

I ... I feel so blue ...

I ... I feel so blue... in this white poem.

I feel so blue.

I feel so blue... in this white poem.

I... Tell me why, tell me why, tell me why, the wind is so cold. Take my heart.

Make things right.

Love ... love will find a way.

This is the line you used to love.

This is the line you used to love.

I ... I feel so blue...

Tell me why, tell me why, tell me why, I feel so blue ...

Tell me why, tell me why I love you.

My love for you would break my heart.

No no no ...

No way to change my heart

I still wanna be in this endless blue verse...

This is the line you used to love ...

love will find a way.

This is the line you used to love.

Do you still believe that?

While I'm away... Read this line again.
