

X-PERIENCE, Come into my life

Come into my life again
i will back to you and then
you can take me right
Come into my life my love
I known I cannot get enough
of you tonight
oh, come into my life
oh, Baby hold me tight
Come into my life my love
I known I cannot get enough
of you
Come into my life again
I wanna see you, love you, feel you when
we're getting old, the time goes by
it ain't to late before we die
we gonna leave the bad times and
we gonna leave everything behind again
you know, you're always on my mind
we gonna leave everything behind
Come into my life again
i will back to you and then
you can take me right
Come into my life my love
I known I cannot get enough
of you tonight
oh, come into my life
oh, Baby hold me tight
Come into my life my love
I known I cannot get enough
of you
You came like a thief at night
you broke the door and took me right
now I pack my backs and go
to hunt you, somewhere else, I know
e gonna leave the bad times and
we gonna leave everything behind again
you know, you're always on my mind
we gonna leave everything behind
