

X-PERIENCE, I don't care

You told me its a dream to be
The one who spends the night with me
We made love till the morninglight
And you did everything just right
Refr.:

I dont care if you love me
cause I dont love you anymore
I dont care if you need me
I know it cant be good for me
The love left at the break of dawn
While you were sleeping, sleeping on
I wrote a letter on the floor
cause I dont love you anymore
