

# X-PERIENCE, I don't care

You told me its a dream to be  
The one who spends the night with me  
We made love till the morninglight  
And you did everything just right

Refr.:

I dont care if you love me  
cause I dont love you anymore  
I dont care if you need me  
I know it cant be good for me  
The love left at the break of dawn  
While you were sleeping, sleeping on  
I wrote a letter on the floor  
cause I dont love you anymore
