

# X-Ray Spex, Good Time Girl

I don't wanna be? I don't wanna be  
A good time girl A good time girl

String you along like I string my pearls  
A typical good time girl  
A good time girl  
A good time girl  
A typical good time girl  
I don't need no diamonds now  
They'd seem like broken glass  
I'd never wear a fur  
Would seem like stepping into anothers skin  
A typical good time girl like me

A good time girl  
A good time girl  
A typical good time girl (repeat)

A typical good time girl (repeat)
