

# X-Ray Spex, Let's Submerge

It's dark and eerie  
And it's really late  
Come on kid's don't hesitate  
We're going down to the underground  
We're going down we're going down  
To the underground

The hades ladies are dressed to kill  
Dagger glares from Richard hell  
Tension heightening heating frightening  
Thunder rolls as fast as lightning

If you've got the urge  
Come on let's submerge

The subterranean is a bottomless pit  
The vinyl vultures are after it  
Molten lava sulphur vapours  
Smoulder on to obliterate us

If you've got the urge  
Come on let's submerge
