

Xandee, Chain Reaction

You and I both know
it ain't easy
getting down with reality
searching for the one
that sparks the right feeling
Creating live electricity
Hoping for a brand new hungry heart
looking out for something true
we're coming in armed to the theet
with a bad attitude and a smile beneath
Let's start a chain reaction, c'mon baby
and make some physical chemistry
it's the main attraction of it baby
to feel the heat when you fall in love
let's start a chain reaction, c'mon baby
it all makes sense scientifically
it's the main attraction of it baby
to feel the heat when you fall in love
Hunting high and low
the right combination
for the key to the midas touch
turning up the flame
igniting the passion
for our bodies to fuse as one
Hoping for a brand new hungry heart
looking out for something true
we're coming in armed to the theet
with a bad attitude and a smile beneath
Let's start a chain reaction, c'mon baby
and make some physical chemistry
it's the main attraction of it baby
to feel the heat when you fall in love
let's start a chain reaction, c'mon baby
it all makes sense scientifically
it's the main attraction of it baby
to feel the heat when you fall in love
While the base is thumpin'
and the world is spinnin'
my body burnin', it's chemistry
While the base is thumpin'
and the world is spinnin'
my body burnin', it's chemistry
we're coming in armed to the theet
with a bad attitude and a smile beneath
Let's start a chain reaction, c'mon baby
and make some physical chemistry
it's the main attraction of it baby
to feel the heat when you fall in love
let's start a chain reaction, c'mon baby
it all makes sense scientifically
it's the main attraction of it baby
to feel the heat when you fall in love
Everybody needs, everybody feels it,
wooh baby
Everybody needs, everybody feels it,
wooh baby
