

Xandee, Payback Time

Zero point zero, respect I got
from the local hero, the man at the top
Hold on, and wait a minute, my time has come
don't you try to deny it, where you're coming from
Well I rise from the ashes, out of the blue
well my lightning crashes, now I'm stonger than you
Don't you know it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
I wouldn't get my life in second gear
cause now it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
but you'll have to change your mind
I'm living in the shadow, down on my knees
you hang on to your ego, when you look down on me
Listen to me baby, you think you have it all
but you're o so shady, get ready for the fall
Well I rise from the ashes, out of the blue
well my lightning crashes, now I'm stonger than you
Don't you know it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
I wouldn't get my life in second gear
cause now it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
but you'll have to change your mind
Step aside, I'm on may way
and my pride is here to stay
Don't you know it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
but you'll have to change your mind
Don't you know it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
I wouldn't get my life in second gear
cause now it's payback time
crucify and say good-bye
I wouldn't make it in a milion years
but you'll have to change your mind
