

Xandee, This Is Me

Talk to me baby
I don't know what to do
lie to me maybe
and I'd be better to you
You know
you gave up a chance to be
livin' in a dream
but I changed
I'm not what I used to be
cause I know love when it comes to me
This is me now
if you're not the one then go now
only the bests enough
you just gotta see
nothing less would do for me
This is me now
if you're not the one then go now
only the bests enough
you just gotta see
nothing less would do for me
Born to be happy
that's all a big girl should do
oh, I'm kind of dizzy
you got me dancin' for you
You know
you gave up a chance to be
livin' in a dream
but I changed
I'm not what I used to be
cause I know love when it comes to me
This is me now
if you're not the one then go now
only the bests enough
you just gotta see
nothing less would do for me
This is me
don't you wanna see
nothing less would do for me
This is me now
if you're not the one then go now
only the bests enough
you just gotta see
nothing less would do for me
