

# Xandria, Calyx Virago

Fading lights, I sink into  
This other world, where only you  
Can heal my wounds and make me see  
Only here I am free

You are the night with all its charm  
Glowing darkness keeps me warm  
Take my life - just one caress  
Let me be forever yours

Close your eyes

Fading lights, I sink into  
This other world
