

Xandria, Casablanca

At the temple of black gods I failed again
For you, for you - a chilvarous end for a man
Clandestine enthralling haze
A docile sacrifice for my grace

"And you will hear me
Siren's calls of temptation
Teasing you
No limits will be
No taboo of imagination
I'll fill your void"

Resurrect from the ban they put on you
Fall again, again - you will - what they foreknew
Only gods illuminate
And just a slave to be is your fate

"And you will hear me
Siren's calls of temptation
Teasing you
No limits will be
No taboo of imagination
I'll fill your void"

I will always savour you
As I will always be your fool

"And you will hear me
Siren's calls of temptation
Teasing you
No limits will be
No taboo of imagination
I'll fill your void"

"And you will hear me
Siren's calls of temptation
Teasing you
No limits will be
No taboo of imagination
I'll fill your void"
