

# Xavier Rudd, From Bud To Blossom

To know you  
And sooth your pain with high  
And not even try  
Through feelings and senses  
We stand as one  
And we don't even try

Stand up push them  
Stand up feel me  
Don't stand alone  
For your time here now  
Is the time you wanted when  
Things seemed so wrong  
So won't you stand up  
And let your standard feelings  
Dissolve away with time  
Allow the clouds to shift  
And your heart to blossom  
Every things gonna be just fine  
Won't you stand up  
And let your standard feelings  
Dissolve away with time  
For your time hear now

Is the time you wanted  
Let the good things dance inside  
Your head

To want it and need it  
When taken by  
Complete surprise
