

Xscape, Feels So Good

Uh huh, uh huh
LaTocha, Kandi, Tiny, Tameka
You know the flava
Do you
know what you do to me
Do you know what you do to me
Do you know what you
do to me
Do you know what you do to me
[Xscape]
1 - When I hear your
voice
Do you know what you do to me
Do you know what you do to me
When
you come around
Do you know what you do to me
Do you know what you do to
me
When you touch me
Do you know what you do to me
Do you know what you
do to me
When I look in your eyes
And you look into mine
Do you know
what you do to me
Just when you think you know the game
It all comes to an
end someday
Cuz everybody's got somebody
That moves them in a certain
way
See, I never thought it could happen to me
I couldn't see it until I
met you
You set me free baby
Repeat 1
If this was a crush I woulda been
long over you
(But I know it's more)
Cuz you got me doing things I said
I'd never do
Boy you're, beep beep, I'm losing sleep
Wanna see you
again
I'm doing everything to let you know
I wanna be more than
friends
When it comes to you
I lose all my control
I let the situation
get out of hand
Exactly like I'm fightin' with you
I'm gonna be by
myself
I can't stand to see you with no one else
Baby, baby, that's the
kinda thing
That you do to me
[JD]
Do you know what you do to me
Do
you know what you do to me

Do you know what you do to me
Do you know what
you do to me
Do you know what you do to me
Do you know what you do to
me
Huh?
Repeat 1 until fade
