

Xscape, Understanding

[Chorus:]

What I need from you is understanding,
How can we communicate,
If you don't hear what I say.
What I need from you is understanding,
So simple as 1-2-3,
Understanding is what we need.

[Verse One (Tiny):]

You don't really know me,
You just wanna do what you wanna do.
That's not the way it should be,
No, you should listen to me boy.
I try so very hard to make you understand,
But the choices you make, baby they're all demands.

[Break:]

[Kandi]

I try so very hard to keep our love alive,
But you don't wanna meet me half way,
Then the understanding dies.

[Tamika]

There's no way that we can work it out,
If we don't pull together.
I don't mean to be demanding,
But I want some understanding,
I want to be with you.

[Repeat Chorus]

[Verse Two (LaTocha):]

I listen to you baby,
And I know the things you're going through.
I try to understand,
That's why I'm still here with you, baby.
See everyday we're living,
Is one thing that will always be unsure.
That's why I need you baby, pleading baby,
Please let our love endure.

[Repeat Break & Chorus (x2)]

[Repeat Chorus to fade]
