

Xspace, My Little Secret

did anybody see ya,
come into my house last night?
when I got your message in my beeper
that you wanna do everything I like alright

I like bein' in the same room with you and your girlfriend
the fact that she dont know
that really turns me on
she'll never guess in a million years
that weve got this thing goin' on

chorus
your my little secret
and that's how we should keep it
it's on everybody's mind
about you and I
they think so
but they really know or want to know

that your my little secret
and thats how we should keep it
we should never let them know
never let it show
if you know like I know
we should never let it go

If anybody knew that
it was you and your house
that I was creepin to all the time
you promise me you'll do it
cause I find it hard to keep you off of my mind

I like being in the same room with you and your girlfriend
the fact that she dont know
it really turns me on
she'll never guess in a million years
that we've got this thing goin' on

chorus
cause your my little secret
and thats how we should keep it
its on everybodys mind
about you and I
they think so
but they dont really know or want to know

that your my little secret
and thats how we should keep it
we should never let them know
never let it show
if you know like I know
we should never let it go

everybody cheats
but you gotta know how
gotta know when
gotta know why am I
Infatuation with you is taking me on an emotional high
I'm caught all up in this love affair baby
speculation will bring us stares
all my friends are askin' me about it
still the truth I can't reveal

chorus

as long as Im right here
you aint never gonna be by yourself
cause the love that we share
stays on my mind
your always gonna be a little secret of mine
repeat

*chorus*2X*
