

Xspace, Obsessed

by Benjamin Ackerman and Costin Tuculescu

Why do you invade my sleep?

My soul lies here restless.

My heart you keep,

Now I can't forget us.

Now I wake alone again,

and my heart I need to mend,

'cause you've taken it again!

Night after night you visit me.

You pleasure me, you torment me.

In all my dreams I dream of you,

it can't be true, so don't wake me!

Love you forever.

Love you forever.

Hate you forever.

Miss you forever.

In all my dreams I give to you,

gold leafed wings of unknown truths.

Haunting memories of things left unsaid,

untouched feeling forgotten and dead.

Vivid images smiling red...

Forsaken love that was all in my head!!
