

XTC, My Paint Heroes

All of paris giggles with flags
Laughing lions leap up from the page
My the world looks good from where you are
My the world looks good from where you paint from

Barcelona, nuclear festive, wire women
Wriggle from life's cage
My the world looks good from where you are
My the world looks good from where you paint from
My the world looks good from where you are
My the world looks like it's all a party
Packed with my paint heroes
Like it's all a party
Packed with rousseau
Miro, miro, on my wall
I love you the most of all

In port lligat, liked his gala
Waxed antenna, brushes up a storm
My the world looks good from where you are
My the world looks good from where you paint from

Catalonia's atom caveman
Cracks his whipline tipped in purest form
My the world looks good from where you are
My the world looks good from where you paint from
My the world looks good from where you are
My the world looks like it's all a party
Packed with my paint heroes
Like it's all a party
Packed with dali
Miro, miro, on my wall
I love you the most of all
