## XTC, Spinning Top

I'm like a spinning top
Going round and around
Well I don't know what's up
And I sure don't know what's down
Now watch me - I'm like a spinning top
Can't tell day from night
Well I don't know what's wrong
And I sure don't know what's right
Now watch me

It started when I heard your song of love Pouring down like honey from above I started to spin I started to move Just like a needle That's sticking in the same old groove

I'm like a spinning top

I like it so much I'm never going to stop
