

Xymox, Reaching Out

Take your time, high we ride
Loose control, high we go

You always win, you never loose
All your love is white as snow
As we sow we shall reap, give your love
Finders keep, as within, so without
As above so below
Know your heart in your soul
Let your mind take control

I am reaching out
I reach within

My soul is aflame
We drift away
Deep inside, we ride this train

You always win, you never loose
All your love is white as snow
As we sow we shall reap, give your love
Finders keep, as within, so without
As above so below
Know your heart in your soul
Let your mind take control

I am reaching out
I reach within
