

Y Kant Tori Read, Cool on your island

If you dont treat me better
baby Ill just run away
baby I dont know what drives you
to play all these silly games
hey, cmon, baby
Im much stronger than you know
sometimes Im not afraid
to let it show
When will you wake up?
I want you more than the stars and the sun
but I can take only so much cool on your island
Is it cool on your island?
Hey, I gotta brand new dress, babe
could it make you wanna try?
I guess I didnt want to notice
the stars gone from your eyes
cmon, baby
Im much stronger than you know
sometimes Im not afraid
to let it show
When will you wake up?
I want you more than the stars and the sun
but I can take only so much cool on your island
Is it cool on your island?
Hey
We could buy an airplane
build a home in the sand
you could tell your secrets
I could understand
but then by the morning
comes crumblin down
and as you're leavin
Wait
When will you wake up?
I want you more than the stars and the sun
but I can take only so much cool on your island
Youre so cool, baby
When will you wake up?
I want you more than the stars and the sun
but I can take only so much cool on your island
You're so cool on your island
Is it cool on your island?
Is it cool, baby?
yeah
If you dont treat me better
baby, Ill just run away
cool on your island, yeah
If you dont treat me
then one day youll wake up cold, yeah
then youll know
youll know
youll know
you love me
