

Y & T, Rescue Me

I was down i was barely makin it
she was gone and i couldn't take it
i was looking for a new way of thinkin
but when i go to sleep, i'd pray i wouldn't wake up
well i want you
i want you to rescue me
the world kept turning
but i stood still
like the shadow looking for a man
did i play to win
or did i win to lose
of all the times i haven't had a clue
there's people tellin me, about the things i do
the more i here the less i see in the truth
oh well i'm on the edge, i can't look down
oh, slipping slipping slipping oh yea
i want you to rescue me
help rescue me
oh you know i want you
i want you to rescue me
help rescue me
i know the same thing happend
from another time
oh it just sounds like mine
i've been stranded back
on this twisted road
and I can't see the sky from here
I don't turn around
I go straight ahead
I can't stop now i'll find the light someway
oh, oh well im on the edge, i can't look down
oh, slipping slipping slipping oh yea
(guitar solo)
i want you
i want you to rescue me
help rescue me
oh you know i want you
i want you to rescue me
help rescue me
you know i want you
i want you to rescue me
help rescue me
help rescue me
help rescue me
