

# Yam, Changed unhappienes

I will move away from you  
with my unhappiness trailing  
hope you like what i've done  
my faith is low and belief is high  
(chorus)

hope you like what you've done  
i've moved on  
hope you're happy with what  
you've done

i don't want you back  
with my unhappiness trailing  
i set looking for others  
none like you

but i've moved on  
hope you like what  
you've done and said  
chorus

how do like spending time alone  
with friends and thinking of me  
funny i did the same thing  
looking back you're just a friend  
nothing like i used to see  
friends may be the word  
you decide

i'm looking for another  
nothing like you  
hope you like seeing me  
the way i am now

with vans and chains  
glad that i didn't get with you  
chorus

say goodbye to your old friend  
that liked you

coz you may never talk to me  
may never see me  
the way i was before  
new me and a new you

no chance....  
not even thinking about it

chorus  
too bad you missed out

bye to the old me and  
goodbye to the old you  
so you goin to say  
hello? coz i'm me  
now.....
