

Yash & Sanders, You Need It

If you can read my mind
I see
You pass in by
You know
I want you baby
And i want you baby

If you can realize
What i mean, inside
You give it to me baby

You should come
And save it, tonight

Cause
I know what to do
Come, show my love to you
Take you to extasy
You only gonna dream about me
Yeeaaaah

I feel it feel it
So give me all your love baby
You need it need it
So don?t you make me wait so long
Don?t you make me wait so long

Don?t make me wait
Don?t make me wait
Don?t make me wait

I see it see it
Im dancing sexy for you baby
You need it need it
So why you make me wait so long
Why you make me wait so long

Make me wait

You know, my kiss don't lie
And if take your time
You know, you give me baby
And you give me baby

In the blink of the night
You have me by your side
And i will be your lady
Because i know you baby
Cause i?m your baby
