

# Yasmeen, When Will It Be Me

(VERSE1.)

I see the couples are walkin' by  
Feel like I  
Don't wanna be alone today  
So glad no one can see what I hide  
Deep inside  
How it feels to be  
The girl who never gets the right guy  
Tell me why  
When there's so much I've got to give  
I wake up reaching out in the night  
Ready to hold him tight  
'Til I realize  
That nobody is there

(CHORUS.)

When will it be me?  
When will I be the one  
Somebody's dreaming of?  
When's it gonna be?  
When will I find my heart  
Lyin' inside the arms  
That never let me go?

I'd really like to know  
When will it be me?

(VERSE2.)

My friends seem to have all the love  
(Feels like love)  
Knocks on their door and walks right in  
I know that I am worthy of what I've been wishing for  
I can't wait no more  
Love's nowhere to be found

(CHORUS.)

(HOOK.)

Feeling his tender touch  
(Lying in his arms)  
Talkin' bout forever together  
Givin' him all my love  
That's been trying to break free

Don't wanna be alone  
No more  
I'm telling you what I need  
I want someone who loves me for me  
And when will it be?  
Wonder when it will be me?

(CHORUS.)

I ask myself  
When will it be me?
