1st Half:

Searching within me
You who only hates
You lead me in heaven, going about pleading
Your lack of love is
It's clouding my heart and
Freely gives me something that flows in my mind
If this love will stay
Please only use this love
Please Ohhh...

2nd Half:

Never know glaver gley in a glisten
-Tell me like a day in the rising
Heavy going and I like getting peace that's clean
Like a child, in the light where the light's been
-Hear the cry of the leave in the heathen
Ever know where the blamed and the leathered get lashin?
Oh I'll never want a heaven only sewn with gold
It's been kinda lousy when it's gone
It's been never kinda clean being if you would want to climb
-It's really God who loves the soul
