

Year Of The Rabbit, Say Goodbye

Tiny lights dance inside his eye
They dance with the care of snowflake flies
They talk all day and whisper all night
Is that anyway to live?

Say goodbye
Accept this fate without any anger
Say goodnight
Turn out the light and close the door on your way out

Tiny voices inside his mind
They sing with the whine of Christmas time
An empty letter he could've left
Is that anyway to die?

Say goodbye
Accept this fate without any anger
Say goodnight
Turn out the light and close the door on your way out

Tiny lights dance inside his eye
They dance with the care of snowflake flies
They talk all day and whisper all night
Is that anyway to live or die?

Say goodbye
Accept this fate without any anger
Say goodnight
Turn out the light and close the door on your way out
