

Years & Years, Meteorite (piosenka z filmu "Bridget Jones 3")

I don't know how it led to this
I felt a tremor in your kiss
Earth shakes and I answer it
My body realigns
It's too much, I cannot handle this
I taste the pleasure on your lips
You make planets start to spin
I'm ready to ignite

Let me feel your devotion
Let me feel your emotion
Love me like it's the last night
Like it's the last night

Hit me like a meteorite /3x
Don't let me go, /2x

You've been following the rush
I've sinned, but I keep it hush
You're near, but it's not enough
I need this to survive
Reckless, what I'm heading for
Lights flash and I hear a roar
One touch and you're so powerful
You're burning through the night

Let me feel your devotion
Let me feel your emotion
Love me like it's the last night
Like it's the last night

Hit me like a meteorite /3x
Don't let me go, /2x
I can feel it coming tonight
Don't let me go /2x
