

Years & Years, Muscle

All the lights are focused on you
I can hear applause as your body talks
Rumor has it you're on the loose
What do you adore? Shall we both explore this fantasy?
Hand on your heart, tell me you want me (tell me that you want me)
Alone in the dark, I'm going crazy (crazy)
Don't leave me now, stay at the party (just stay at the party)
I don't wanna leave without your body
Say you're gonna pick me up
Never gonna put me down
Are you getting me into trouble?
Look at all that, that muscle
No, I wanna take a bite
And I wanna take it now
'Cause I wanna get into trouble
Look at all that, that, all that muscle
Midnight at the corner with Jack
Have we met before?
Walk me to your door
I need to see
Hand on your heart, tell me you want me (tell me that you want me)
Alone in the dark, I'm going crazy (crazy)
Don't leave me now, stay at the party (just stay at the party)
I don't wanna leave without your body
Say you're gonna pick me up
Never gonna put me down
Are you getting me into trouble?
Look at all that, that muscle
No, I wanna take a bite
And I wanna take it now
'Cause I wanna get into trouble
Look at all that, that, all that muscle
All that, that, all that muscle
All that, that, all that muscle getting me into trouble
Look at all that, that muscle
All that, that, all that muscle
All that, that, all that muscle getting me into trouble
Look at all that, that muscle
Got your attention
I don't wanna wait for you to make a move (come on, baby, make a move)
No sweet intentions (sweet)
I don't wanna waste any time, I want you (you know that I want you)
Say you're gonna pick me up
Never gonna put me down
Are you getting me into trouble?
Look at all that, that muscle
No, I wanna take a bite
And I wanna take it now
'Cause I wanna get into trouble
Look at all that, that, all that muscle
All that, that, all that muscle
All that, that, all that muscle getting me into trouble
Look at all that, that muscle
All that, that, all that muscle
All that, that, all that muscle getting me into trouble
Look at all that, that muscle
