

Yello, Liquid Lies

He's every single step a man around town
Sure of himself to win the triple crown
He has overrehearsed hi irresponsible smile
This guy is a lie, he never knew why

Why why why he never knew why
Why why why it's gotta be lies

He has overrehearsed hi irresponsible smile
This guy is a lie, he never knew why

In his mind love is stress
He believes more is less

Why why why he never knew why
Why why why it's gotta be lies

Why why why he never knew why
Why why why it's gotta be lies

He's every single step a man around town
Sure of himself to win the triple crown
In his mind love is stress
He believes more is less

In his mind love is stress
He believes more is less

Why why why he never knew why
Why why why it's gotta be lies

Why why why he never knew why
Why why why it's gotta be lies

In his mind love is stress
He believes more is less
In his mind love is stress
He believes more is less

Why why why he never knew why
Why why why it's gotta be lies
Why why why he never knew why
