Gold

gold - gold

gold gold -

Blue moon is walking

big slips are smoking

Big time disaster

my heart gets faster.

My pot is melting

doctors consulting

Destiny - give it to me

destiny - give it to me.

Give me your gold

give me your gold.

This is your life and you got to know

It's just one more show

it's fantasy - give it to me

Fantasy - give it to me.

You got a nugget in your pocket

got a nugget in your hand

You got a nugget in your pocket

got a nugget for a grand.

So forget your hesitation

take it as an invitation

Nuggets for a great confusion

nuggets for a great illusion.

Clouds - love - stars - colours -

Ain't got no gold

so you get no show

So come on with me and give it. to me

give it to me.

Gold

gold gold

gold -

This is your show and it's all in here

So why don't you stay? I give it to you

give it to you.

Give me your gold

give me your gold.

You got a nugget in your pocket

got a nugget in your hand

...

Gold - dig it into the night.

You got a nugget in your pocket

got a nugget in your hand

...
