

Yello, Lost Again

I told you lady
Take me for one day
Please don't ask any questions
You know I can stay

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I know isn't this crazy
Let's have a last drink
Don't ask where I come from
And don't ask what I think
I leave you, lady
Full of desire to stay

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I told you
Take me for one day
Don't ask any questions
You know I can stay

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me

I wish the wind was cold
I wanna hold you baby hold
Only in your arms I'm lost
Don't look at me
