

# Yellow Second, Scalene So Far

inside a shape of equal sides  
that number three  
with eyes inane  
reminding of this urgency  
scalene so far  
uncertain of everyone  
and by degrees,  
isosceles comes  
I know it came out from the inside  
I know places where you can hide  
taken on an angle less than twenty-seven  
nothing more  
spoken of a fable and a candle broken on the floor
