

# Yellow Second, Some Other Way

taken back by some other way  
till i've another one  
still, it's unnerving  
this small force today  
what can i say  
i'm numb  
overhead the greatest moment has come  
but has fl own to high to be of use to an ordinary man  
even one who tries  
and although my hope does retire  
hope that it might return  
though by myself  
i could start up a fire  
the flames would no longer burn
