

Yellowcard, Powder

Lying soaked in sweat tonight
Your knuckles white
You try to fight
The need for more to get you by
You've had enough you wonder why
Even now your body cries
For chemicals to blind your eyes
Wondering can you stay this high
When the cells begin to die forever, forever, forever

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Swallowed like the medicine
That's broken down my happy friend
Wondering if he'll let me in
If I come to see him when
He's better
He's better
He's better

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

There's power in the powder dissolving in your guts
There's power in the powder dissolving in your guts

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Crush it up, Crush it up
Take it down, Take it down
Smash it up, Smash it up
Falling down

Falling, I'm falling, I'm falling down
