

# Yellowcard, Shadows And Regrets

I'm back, back in town  
And everything has changed  
I feel, feel let down  
The faces stay the same  
I see, see shadows  
Of who we used to be  
When I drive, drive so slow  
Through this memory

When we were only kids  
And we were best of friends  
And we hoped for the best  
And let go of the rest

I heard, heard myself  
Say things I take back  
If I could, could retell  
And make these stories last  
I see, see shadows  
Of who we'll always be  
I drive, drive these roads  
That made our memories

When we were only kids  
And we were best of friends  
And we hoped for the best  
And let go of the rest  
Shadows and regrets  
We let go of the rest

Everything has changed  
The Faces stay the same  
Everything has changed  
The Faces stay the same

When We were only kids  
And our time couldn't end  
And how tall did we stand  
With the world in our hands  
And we were only kids  
And we were best of friends  
And we hoped for the best  
And let go of the rest  
The shadows and regrets  
We let go of the rest  
The Shadows and Regrets  
We let go of the rest
