

Yellowcard, Something Of Value

All that I needed to hear from you
something of value but something untrue
all that I wished that I'd find within you

See how what she wanted and she needed
tore it all down in the end
some how like a sickness she infects me
She's simple but deadly my friend

All that I needed to hear from you
something of value but something untrue
all that I wished that I'd find within you

stings when I see all the ways that you
took me for granted and told me its through
picked from my pockets and smiled
empty is nothing and nothing is you
I think I'll just sit for awhile
for awhile.....

See how what I wanted and I needed
it wasn't enough in the end
some how with a quickness I forgot her
I realized she wasn't my friend (2x)

All that I needed to hear from you
something of value but something untrue
all that I wished that I'd find within you
stings when I see all the ways that you
took me for granted and told me its through
picked from my pockets and smiled
empty is nothing and nothing is you
I think I'll just sit for awhile

All that I wished that I'd find with in you
something of value something untrue
