

# Yes, Agree To Agree

(Anderson/Squire)

Don't imagine any way, so any fool can take away the drugs and the pressure

Asking for the level where a world divides its answers

To the gang lords of evil life, they can't show you how

Look upon this life as just a picture you are painting

There is a reason for this being

Look upon this place as just a part of all that is

It is a spiritual part of being

Live within the power, you can be the strength it is

Walk among the living, you can be the strength it is

To give, to live, this hope, comes through,

It takes the trust to agree this agreement

Live for the breaking free

Live for the breaking freedom

Just let it come through come through
