

# Yes, Bring Me To The Power

This state in the matrix of the real world thinking  
This way is meant to surface through the 'net  
This train is set to mystify  
This day in the history of the future  
This train is set to justify  
Whether you're ready or not  
This day is of the meeting now

If they don't give us the keys how are we supposed to get ready?  
If they don't give us the keys how are we to survive?  
Cover me up and bring me to the power  
Cover me up and bring me to the power  
Cover me up and bring me to the power

All I know is all I want to give you

Cover me up get closer to the fire  
Cover me up get closer to the power  
Cover me up get closer to the power  
Cover me up get closer now  
Cover me up get closer to the power

God talk  
God talk, now, talk  
God talk  
Give a little-ation  
God talk, revelation  
God talk, revelation

If they don't give 'em the keys  
If we don't give 'em the keys  
How are they supposed to be ready  
If we don't give 'em the keys  
How are they to divine  
If we don't give 'em the keys  
How are they supposed to be ready  
If we don't give 'em the keys  
How are they to survive  
Cover me up and bring me to the power  
Cover me up and bring me revelation

If we don't give 'em the keys  
How are they supposed to be ready  
If you don't give 'em the keys  
How are they to survive  
The power of love can open every heart in everyone  
Minute by minute.....
