

Yes, Love shine

Shine

I wont sleep again until I sleep with you
I wont dream again until I dream again with you

My love

One look in your eyes and I see
The light shining through
I truly believe in the magic of all that you do

Give me hope

When I need it

Give me peace

When I feel it

Give me life

When I breathe it

Give me dreams

Keep me dreaming

One look in your eyes and I know

Its right for me and you

Feel the love shine

Feel the love shine

Do you feel the love shine?

Feel the love shine

All good people

Your flame is the fire that burns in the night

Guiding me through

Drawn out of the darkness and into the light you bring me to

Give me hope

When I need it

Give me peace

When I feel it

Give me life

When I breathe it

Give me dreams

Keep me dreaming

One look in your eyes and I know

That its right for me and you

Do you feel the love shine?

Feel the love that shines

Do you feel the love shine?

Feel the love that shines

Do you feel the love?

I wont dream again until I dream again with you

All good people got to feel the love

I wont sleep again until I sleep again with you

One chance in a million

To find a true love between two

Taken by the powers of what you believe

Knowing you cant lose

Give me hope

When I need it

Give me peace

When I feel it

Give me life

When I breathe it

Give me dreams

Keep me dreaming

One look in your eyes and I know

It was meant for me and you

Do you feel the love shine?

Feel the love that shines

Do you feel the love shine?

Feel the love that shines

Do you feel the love shine?

I wont dream again until I dream again with you
Do you feel the love shine?
I wont sleep again until

Do you feel the love shine?
Beyond the sun
Beyond the sky
These very questions lie
Starlight
Loving, in a lifetime
It was the first time candlelight
Something happens in your lifetime
Its the dance we all go through
Bring it in now
Bring it in true
Bring it in fast
Bring it right through
Right through
Feel the love shine
