

Yes, Our Song

(Anderson/Squire/Rabin/White)

Toledo was just another good stop
Along the good king's highway
My fortification took me by surprise
And hit me sending me sideways
Spellbound - Roundly - Good for sunshine
Can't help thinking

Singing the Rule Britannia
And this is where it grabs you
There's method in the key of C
Toledo's got to be the silver city
In this good country

Our song
It gives us a reason
Our song
That good remedy
Music has magic
That stuff of syncopation

Ever tried driving it to golden heights
Just simply jiving it
My mystification it got a
Jewel skies crazy spacing it
Hot sun - Crowded - Screams high voices
Singing speechless

Touching of the healing heart
So this is where we really start
Music is a shout of foregone conclusions
As long as music plays its part
Good good part

Our song
It gives us a reason
Our song
That good remedy
Music has magic
It's good clear syncopation

Treat it good
Treat it rightly
And if you get it flowing
The harmony is glowing
So get ready
So get ready
Don't go toledo toledo don't go
Music - Good to you
Music - Good to you
