

Yes, State Of Play

(Rabin, Anderson)

You can hear the siren screaming,
Take me to the promised land;
See the intervention
Take you higher and higher.
See we are the giving world,
We are responsible,
We're not about to break-

It's just a state of play
It's just a state of play

This is the revolution,
Coming with the giving world
No need to wait for your
Appointment is made.
No need to ask for help,
It's in the love we breathe
Dancing in the new design

It's just a state of play
It's just a state of play

Secret needing,
>From this love I'm feeding
High time flying,
>From your love I'm feeding
High time flying,
Monumental reaching to god love
Secret needing,
All I really want to know right now...
The state of play
Are you looking at it
Is it looking at you.

It's just a state of play
It's just a state of play

No point in kidding,
Let the children split the atom-
A firm believer this
Appointment with love.
All those who look for glory,
They see the flags are flying,
They hear the siren screaming-
It's just a state of play
It's just a state of play
Secret needing,
>From this love I'm feeding
High time, flying,
All I really want to know,
Right now, right now...
(I want to be inside your heart)
I want to know right now,
Is this the state of play.
Are you looking at it.
