

# Yesterday & Tommorow, Summertime Girls

Ooh yeah, I  
Just wanna watch the girls, goin' by...  
It's like poetry in motion  
against a hot summer sky.  
I'm in love, yeah yeah...  
at least every minute or two...  
until the next time a girl walks by  
I think I love her too

I can't help myself  
but I just loose my head  
everytime you see 'em walkin' by...

Summertime Girls  
You make my whole world go around  
Summertime Girls  
When you lift me up  
I never come down, no, no...

She's hot!  
I dig her wiggle and all that shake  
I can read that body language, yeah  
a million miles away  
Sometimes I, yeah come on just a bit, a bit too strong  
But I just like to pretend, yes.  
that I can have 'em all.

No time, time to catch my breath  
so easily impressed  
it doesn't matter if it's day or night

Summertime Girls  
You make my whole world go around  
Summertime Girls  
But when you lift me up  
I never come down, no, no...

Solo: Dave Meniketti

Come here girls...

Summertime Girls  
You make my whole world go around  
Summertime Girls  
When you lift me up  
I never come down, no, no...

Summertime Girls  
Oh baby..You make my whole world go around  
Summertime Girls  
The way you lift me up  
I never come down, no, no...
