

Yesterdays Rising, Let's Take Slow Steps

you're home now and i cant imagine what its like to enter a stone wall building
knowing you'll wake up different
waking up with a new way of life
isn't that what you wanted but its how it had to be
for u to keep seeing the world,
lets take slow steps so we can mold u right
lets begin right now lift off and take flight
were in these clouds and they rotates
take slow steps so we can mold u right
lets begin right now lift off and take flight
were in these clouds and they rotate
you came to with a mouth so dry not knowing where your were
you're immune system so low
a common sickness would own you
you saw the stone walls and automatic doors
and i was waiting for u
i am your watch tower
(could u be any healthier?) could you be any healthier?
im still waiting still waiting to see
why why why why
you were taken by surprise
why why why taken
