

Yngwie Malmsteen, Black Sheep Of The Family

I walked down
That lonely road of life
Got my fair share
Seen a different light
Well I tried so hard
So don't you know I'll always be
The black sheep of the family
Don't you know I'll always be
The black sheep of the family
Alright, I've got this car
It's shiny and black
So don't fuck with it
Or I'll attack
And if it weren't for bad luck, man
I wouldn't have no luck at all
No, no luck at all
So don't you know I'll always be
The black sheep of the family
Don't you know I'll always be
The black sheep of the family
So don't you know I'll always be
The black sheep of the family
Don't you know I'll always be
The black sheep of the family
