

Yngwie Malmsteen, Faster Than The Speed Of L

"

Step inside the dream machine
you're on a power drive
feel the passion of the beast
watch her come alive
Oh-you're almost there, ride on silver air
you better hold on tight-she's fire in the night

Chorus

Faster than the speed of light
Hugging all the curves
Hang on to your life
Faster than the Speed of Light
Super charged and flying low
she's liquid dynamite
Got your hands upon the wheel
The pedal to the floor
now it's time for nerves of steel
hear the engine roar
Oh-you shoot to thrill-Heading for the kill
No control tonight-she's fire in the night

Chorus

Faster than the speed of light
Hugging all the curves
Hang on to your life
Faster than the Speed of Light
Super charged and flying low
she's liquid dynamite
Rev it to the Red line
you're tearing up the street
12 cylinders and she's all mine
she's too tough to beat
Oh-you shoot to thrill-Heading for the kill
No control tonight-she's liquid dynamite

Chorus

Faster than the speed of light
Hugging all the curves
Hang on to your life
Faster than the speed of light
super charged and flying low
liquid dynamite
Faster than the speed of light
Hugging all the curves
Hang on to your life
Faster than the speed of light
super charged and flying low
she's liquid dynamite
