

Yo La Tengo, Night Falls On Hoboken

Frightened face, worried dream
Break my heart with your sad scream

Sun is down, spirits low
Hate my impatience and here I go

Come on, let's leave our misery
And crawl toward where we want to be
Can't we try, can't we try

Come on, sleep one night peacefully
When all your and ??? easily
That's not ???

When we're ???
My ???
Why so worried, you can't explain

Come on, let's leave our misery
And crawl toward where we want to be
Can't we try, can't we try

Come on, sleep one night peacefully
When all your and ??? easily
