## Yolanda Adams, A Song Of Faith

You can't let it get you down No oh no no Don't let it get you down

Just when everything seems to be going alright Some unexpected news free enter your life Then you ask your self how could this be wondering why I've been there You see your whole world come crashing down All at one time Your bodies weak from all the worrying Your slow as you mind Your walking down that rocky road But things will get better Cause trouble won't last forever

You can't let it get you down Not down I come to far to turn around You gotta walk with your up high Believe if you could reach the sky You can't let it get you down

Have you ever felt the need to get away from it all The person that you care about the most just broke your heart Just to be in the same room with them

You can't stand the thought I've been there You don't know if your relationship is worth holdin on How much longer can you take being treated so wrong You're confused on what to do But no matter what you do You're gonna make it through

Oh, take it from me The only thing you need a little faith The size of a mustard seed You may cry through the night but hold Cause joy comes in the morning

In the morning Joy comes in the morning Have a little faith Just a little faith And you can make it So don't you give up

Don't you let nobody turn you around Don't you let nobody turn you around Keep your head up to the sky Believe in yourself
