

Yolanda Adams, Miracles And Blessings

Lord I thank you for this day
That was not promised to me
Lord I thank you for my health and strength
And saving me one day
When I think about the things I want
Not the things God knows I really need
There are miracles and blessings for me

We complain about our shoes
When some people don't have no feet
We complain about no money
But still the Lord does feed
For when I think about the things I want
Not the things God knows I really need
There are miracles and blessings for me

We need to trust God more and learn to love him more
And believe and keep the faith in what we cannot see
For when I think about the things I want
Not the things God knows I really need
There are miracles and blessings for me

We need to trust God more and learn to love him more (Jesus)
And believe and keep the faith in what we cannot see
For when I think about the things I want
Not the things God know I really need
There are miracles and many blessings
There are miracles and so many blessings
There are miracles many miracles many miracles
Many miracles many miracles and blessings
There are miracles and blessings for me
