

Yoomii, You're My First Love

1. You, you are the one
And you are all that I want
I will never love another, never leave you alone
Cuz you and me have just begun
My love for you is true, and you
Will see my heart it's yours
Cuz each day I'll stay beside you and we'll always be strong
See, all - yes all I want is you
Only you, o-o-o
Ref. Don't ever leave me,
You're my first love.
My love is true,
I'll stay with you - forever.
Don't ever leave me,
You're my first love.
All that I know is: you're my first love

2. You, you have my heart
My soul, now take what you want
I will be your one and only cuz I'm living for you
A love like ours is never done
Ref. Don't ever leave me,
You're my first love.
My love is true,
I'll stay with you - forever.
Don't ever leave me,
You're my first love.
All that I know is: you're my first love
